2. AeroSim Service and support

- 2.1. Upon accepting this Terms and Conditions, Cape Horn Eng. agrees to enable the Customer to use the AeroSim Service in accordance with Section 2.2 below. The Customer agrees to pay tokens in order to use the Service. The Framework that Cape Horn Eng. provides is used to simulate physical processes using data that the Customer uploads in an Account the Customer creates (Section 6). These data are composed of various parameters, the CAD file, sailing conditions, project settings, and other necessary information.
- 2.2. Cape Horn Eng. grants the use of a Framework application. This Framework is composed of various components from various software. Cape Horn Eng. is thus providing a technical construct for use. The data transmitted by the Customer will be forwarded by Cape Horn Eng. to computers always in encrypted form. The use of the Framework will be carried out on these computers. The data will be loaded to the web server from the Customer's local computer. As soon as the Customer submit the data, Cape Horn Eng. forwards the data and the settings to external computer centers; as soon as results are created on these computers, they are sent to the web server and can be called up by the Customer in his Account.
- 2.3. Cape Horn Eng. rents computing capacity in order to enable the use of its software.
- 2.4. Cape Horn Eng. sends the data to available computers in such a way that the available resources can be used as efficiently as possible.
- 2.5. Cape Horn Eng. does not use the data that are uploaded by the Customer. Separately, the framework sends reports about errors in the program's application flow through the Cape Horn Eng. program used by the customer. The Customer consents to Cape Horn Eng. using these data exclusively for optimizing the program and then deleting the data immediately. Cape Horn Eng. stores the conclusions and insights obtained from the data to, for instance, optimize the framework or to be able to provide users with tips for using the Service (a non-exhaustive list).
- 2.6. Cape Horn Eng. takes customary precautionary measures in order to guarantee the security and confidentiality of the customer data.
- 2.7. Cape Horn Eng. grants use of the AeroSim Service immediately after opening of the account and buying the desired amount of token, regardless of any assertion of a right of withdrawal.
- 2.8. The simulation projects can only be seen and processed by the individual user.
- 2.9. The user remains the owner of all of his/her owner's rights and additional intellectual property rights, notwithstanding the provisions in these Terms and Conditions.
- 2.10. In order to use the Cape Horn Eng. Software, the Customer must create the Account using Cape Horn Eng.'s home page. All required data must be entered in order to open the Account as described in Section 6. The data that are requested by Cape Horn Eng. for the user's publicly visible profile does not need to permit any conclusions as to the user's identity. The user is free to provide additional information.
- 2.11. The Customer may request that Cape Horn Eng. employees help in the creation of a simulation.

2.12. In this case as well, Cape Horn Eng. excludes any and all liability for the correctness of the modeling of the technical system.
